

# Mystified

Juliet Simms

I hear you knocking on the other side  
You got me mystified  
You got me mystified

I hear you calling but I've been denied  
You make me lose my mind, you make me lose my mind

I can't find the power to survive  
I've been looking my whole life

Now you got me looking through a crystal ball  
I see you coming away  
When I walk on fire it don't hurt at all  
But I get burned just the same

You got me dancing with the devil's pride  
You got me mystified, you got me mystified

I see the truth you hide inside the lies  
You got me mesmerised, you got me mesmerised

I can't find the power to survive  
I've been looking my whole life

Now you got me looking through a crystal ball  
I see you coming away  
When I walk on fire it don't hurt at all  
But I get burned just the same

Oh  
Break it to me slow  
Before I lose control  
I have to keep on holding on and I  
I'm asking you to stay  
To give me one more day  
And forget the past we made

Now you got me looking through a crystal ball  
I see you coming away  
When I walk on fire it don't hurt at all  
But I get burned just the same

Now you got me looking through a crystal ball  
I see you coming away  
When I walk on fire it don't hurt at all  
But I get burned just the same
