

Once Before I Die

June Carter Cash

Well, I know I'm gonna love you, baby, once before I die
Know I'm gonna love you, baby, and I ain't gonna cry
There's a time to live, and a time to die
There's a time to love and there's a time to cry

I've got reap while you've got to sow
I'm gonna stay and you're gonna go
I told you once and I'll tell you now
If I lose your love, I'll die somehow
You broke the news to me today
I need one thing before you go away

I know I'm gonna love you, baby, once before I die
Know I'm gonna love you, baby, and I ain't gonna cry
There's a time to live and a time to die
There's a time to love and a time to cry
I got to reap while you've got to sow
I got to stay and you're gonna go

I know I'm gonna love you, baby, once before I die
Know I'm gonna love you, baby, and I ain't gonna cry
There's a time to live and a there's a time to die
A time to love and a time to cry
