I'm sick of has-beens coming home Coming home to the warmth And it's madness, who do you think you are?

So can I get the car to jump
Start please
Can I hit the gas to go high speed
Cos everything just happened at once
Yeah everything just happened at once
You see

Please

And it's magic
Are you strong?
Are you strong, any more?
Yeah and imagine
If you knew who you are

So can I get the car to jump
Start please
Let me hit the gas to go high speed
Cos everything just happened at once
Yeah everything just happened at once to me

Yeah, me

So please
