## C'Mon Baby

## **Junior Boys**

I held you in a different light and I dream of you again last night C'mon baby

You were real and you let me in When I fell upon your lap you said Well c'mon baby

But a dream becomes a dream inside of me [?]
C'mon baby

See what you become instead and I punish you in my head C'mon baby

I held you in a different light And I dream of you again last night C'mon baby

You were real and you let me in When I fell upon your lap you said Well c'mon baby
