

# Like There's No Tomorrow

Justin Moore

I worked hard all week but now you're here with me  
Starin' up at a summer sky  
A blanket in the truck bed just gives me the go ahead  
'Cause we've got plenty of time

The crickets are singin', the country moon is shinnin'  
And I can see that fire that's a burnin' in your eyes  
And all I wanna do is lay you down and love you  
Like there's no tomorrow, tonight

Let me whisper in your ear, make my intentions clear  
We'll just be gettin' started come midnight  
Get in a rhythm, nobody's near and listenin'  
It's just you and me for miles and miles

The crickets are singin', country moon is shinnin'  
I can see that fire that's a burnin' in your eyes  
And all I wanna do is lay you down and love you  
Like there's no tomorrow, tonight, yeah

Crickets are singin', country moon is shinnin'  
I can see that fire little baby, that's a burnin' in your eyes  
And all I wanna do is lay you down and love on you  
Like there's no tomorrow, tonight  
Like there's no tomorrow, tonight, baby
