

Bury My Heart

K. Michelle

Please someone tell me I'm dreaming
Eyes open wide in the dead of the night (oh no)
Found something I could believe in
Oh after awhile, you let me down
But now that you're gone, I'm so lost
And I never wanna love again (hmmmmmm)

They say that all wounds heal over time
But why does it feel like I could die
Bury my heart [x3]
So I won't hurt again

Oh, feels like I'm out at sea & I'm sinking
Crying for help but I'm by myself
Uh huh, I wish I could shake off this feeling
Doing my best but it's time like this
When I'm alone, I wanna pick up that phone
Say I, and say that I never wanna love you again

Ohhhhh

They say that all wounds heal over time
But why does it feel like I could die
Bury my heart [x3]
So I won't hurt again

Never even shed a tear or showed an ounce of regret
People say I should forgive but that's easier said than done
When you wake up inside of an empty room
And you know it was once filled with love
How the hell am I supposed to get over it
When I know that I loved you this much

They say that all wounds heal over time
But why does it feel like I could die
Bury my heart [x3]
So I won't hurt again

Bury my heart [x3]
So I won't hurt again
