

Christmas Night

K. Michelle

Ooohhh, ohhhhh, OHHH.

You would think after all these years
you would get it, but we're not there
never bring me a good day
You wont take this holiday

Always put me in the clouds
stormy weather all around
and I always hold you down
when I know that, I can do better

Holidays are supposed to bring us closer
but now I realize, with me and you there's no hope

I lost my love on Christmas night (yeah)
A gift that hurts at the same time (yeah)
'bout to be a new year, a new state of mind (yeah)
but its like hell right now, cause your not around
On Christmas night

You would think after all these fights
we would finally get it right
we were living a hell of a life
but our love had a different side

We had it (yeah), We lost it (Ok)
get back to where, we started it (hey)
Damn it always feels like rain
and will never be the same

Holidays are supposed to bring us closer
but now I realize, with you and me there's no hope

I lost my love on Christmas night (woo)
A gift that hurts at the same time (yeah)
'bout to be a new year, a new state of mind (yeah)
but its like hell right now, cause your not around
On Christmas night

I sit by the fire
while the snow falls down outside
I should be happy, but I just wanna cry
cause those gifts that you bought me
are still under the tree
I should tear 'em up
just like you did to me

I lost my love on Christmas night (On Christmas night)
(It hurts, it hurts)
A gift that hurts at the same time (at the same time)
'bout to be a new year, a new state of mind (ohh)
but its like hell right now, cause your not around
On Christmas night
