

Silhouettes

K. Michelle

Silhouettes in the moonlight
Picture that in the blue skies

Your reflections lighting up the air,
That's the only way I know you're there
'Cause I need you like I need air
Swear I see it crystal clear

You turn my world upside down
And it's not spinning without trying
And you know you did that with that kiss
You take me so high I'm flying
No denying without trying
When I'm with you I'm in total bliss

Feels like the sky is watching you and I
The stars tonight have never shined this bright

Silhouettes in the moonlight
Picture that in the blue skies
Silhouettes in the moonlight
Picture that in the blue skies

Our love is a natural mystique glowing in the clouds
So far up we can't come down
'Cause gravity keeps pulling me closer and closer
Love at the speed of sound

You turn my world upside down
And it's not spinning without trying
And you know you did that with that kiss
You take me so high I'm flying
No denying without trying
When I'm with you I'm in total bliss

Feels like the sky is watching you and I
The stars tonight have never shined this bright

Oh, take my hand, it's like we're living a dream
Oh and I'm your hope and you're my everything
And you take me away, where no one else can reach
Only you and me, only you and me!

Feels like the sky is watching you and I
The stars tonight have never shined this bright

Silhouettes in the moonlight
Picture that in the blue skies
Silhouettes in the moonlight
Picture that in the blue skies
