

Karma

K-Young

I guess you could say
I was a little out of line
To treat you like a secret
Breaking your heart for no reason

I apologize for all the wrong I've done
But the truth is you can never be my only one

(Chorus)

It's a goddamn shame
You ain't the girl I am trying to fall in love with
And it's a goddamn shame
I can't do a lot of feeling when you fuck with a nigga
Your body keeps turning me on
I can't lie, every time I try
And it's no secret
Girl when you leave me
Karma keeps bringing you back to me

I hate to disappoint you
How am I to wake you up from your dreams?

(Dream on)

The truth is I never thought we'd be together for so long

I can't lie
So many times I've tried
To tell you this ain't working out
Karma keep sending you back to me

(Chorus)

It's a goddamn shame
You ain't the girl I am trying to fall in love with
And it's a goddamn shame
I can't do a lot of feeling when you fuck with a nigga
Your body keeps turning me on
I can't lie, every time I try
And it's no secret
Girl when you leave me
Karma keeps bringing you back to me

And don't ever forget
It was a privilege
The time we've spent together
And I hope you'll protect our memory
In your heart
The love we made will last forever
But people change
I guess I need a new lifestyle
I've been feeling different for a long time

(Chorus)

It's a goddamn shame
You ain't the girl I am trying to fall in love with
And it's a goddamn shame
I can't do a lot of feeling when you fuck with a nigga
Your body keeps turning me on
I can't lie, every time I try

And it's no secret
Girl when you leave me
Karma keeps bringing you back to me
