Kaci Brown

Lights are turned down way down low Get on the floor now here we go Move a little closer rock my body Feelin' kinda hot but don't get naughty

My baby turn me on

My baby turn me on

Give me what I want - want what I want

You know what I want - I want it baby

Give me what I want - want what I want

You know what I want

My baby turn me on

Crank the noise up way up high I could dance to this all night Don't stop baby don't you leave Cause I can feel you feelin' me
