

# Deadfall

Kalmah

Darkness creeps around us in the twilight time  
The string of decoy-ducks is swinging on the waves  
Behind the ness  
The flock is dabbling  
The tension intensifies  
Before their takeoff  
We hear the wings rustling just before they come  
And with the calling sound we bluff them down to land

Deadfall - merciless firestorm  
Deadfall - merciless firestorm  
Take 'em all down

Before it ends  
We're running out of shells  
And they have gone  
We just shot none  
Time to stop this lethal game  
We have had our chance to take  
But we still have days to come  
Shallow waters call, my friend

And when the time is right we just can't resist  
The call of the gentle wind coming from the west  
With those rustling wings they're coming once again  
And we're hiding in the bushes waiting for them

Deadfall - merciless firestorm  
Deadfall - merciless firestorm  
Take 'em all down
