

All Because Of You

Karen Carpenter

Every night I get tired eyes
My feet don't reach the ground
Then I'm with you
I get by 'cause I know that you're near me

So baby close your eyes
I can sleep tonight
All because of you
Every night when the fire flies

The walls come tumblin' down
At the Bijou
I get by 'cause I know that you're near me
So baby close your eyes

I can sleep tonight
All because of you
I'll keep singin' my love song
In my mind I'll sing a song for you

You can see through the music
That's in my mind
So baby close your eyes
I can sleep tonight

All because of you
All because of you
All because of you
