

# Make Believe It's Your First Time

Karen Carpenter

We've tried our hand at love before  
We've been around the game enough  
To know the score  
But then is then, and now is now  
And now is all that matters anyhow

Make believe it's your first time  
Leave your sadness behind  
Make believe it's your first time  
And I'll make believe it's mine

The door is closed  
It's you and me  
We'll take our time with love  
The way it ought to be  
This moment's ours  
Tonight's the night  
And if we fall in love  
Well, that's all right

Make believe it's your first time  
Leave your sadness behind  
Make believe it's your first time  
And I'll make believe it's mine  
Make believe it's your first time  
And I'll make believe it's mine
