

## I Break

Katatonia

Sounds of imbalance  
Sleeps through the never  
The artificial lightsource  
Is creeping with flies

And this time i break  
I will never make  
Another day  
Defiant to what's delivered

I will find a way  
To sever myself  
Exit all today  
You can't see this  
Did you ever say  
I break sever  
I will find a way  
Visit me when i'm there

The weakness of hope  
Is the strength of decline  
Remember what's past ways  
And what i've become  
The joy of not being  
Something i need  
I'm only weather  
But only to me
