

# Lick My Lips

Katharine McPhee

Your love, don't need to sugarcoat it  
You make me rush, keep me up all night  
And when I taste it I want more than just a little bit  
You fill me up, baby it's alright

Gorgeous  
Baby come on into my open arms  
Gorgeous  
Every time you need me all my buttons come undone

You make me lick my lips  
You're my favorite flavor  
When we kiss I just wanna savor  
Every drop of it, I can't get enough  
You make me lick my lips, my lips

I'm on top when I'm with you so exciting  
I can't deny, you make me feel so good  
You're my jam, I wanna turn you up louder  
Now let me see what's underneath that hood

Gorgeous  
Baby come on into my open arms  
Gorgeous  
Any time you need me all my buttons come undone

You make me lick my lips  
You're my favorite flavor  
When we kiss I just wanna savor  
Every drop of it, I can't get enough  
You make me lick my lips, my lips

Baby you're the only one I need  
Won't you come and put your lips on me

You make me lick my lips  
You're my favorite flavor  
When we kiss I just wanna savor  
Every drop of it, I can't get enough  
You make me lick my lips, my lips

You make me lick my lips  
You're my favorite flavor  
When we kiss I just wanna savor  
Every drop of it, I can't get enough  
You make me lick my lips, my lips
