

# The Cheapest Key

Kathleen Edwards

A is for all the times I bit my tongue  
B is for bullshit and you fed me some  
C is for charity and now you're mine  
D is for dollars but you're counting dimes  
E is the exit sign backstage at shows  
F is my favourite letter, as you know  
G is for God loves a patient man  
Who spends his days living in ego-land

You always write it in the cheapest key  
You always blame it on the cheapest key  
You always play me in the cheapest key

They say the start's always the hardest part  
But like you know, baby, I'm all warmed up  
Sometimes I want to shout your name out loud  
And let them in on what you're all about

You always write it in the cheapest key  
You always blame it on the cheapest key  
You always play me in the cheapest key

Don't write me off  
Here comes my softer side  
And there it goes  
'Cause I've been on the road too long to sympathize  
With what you think you're owed

You always write it in the cheapest key  
You always blame it on the cheapest key  
You always play me in the cheapest key
