

# We Came Down From The Trees

Kathryn Williams

When we say what we've done  
And shown how we've grown  
We'll never hold onto  
What we think we own  
All we can say is  
We came down from the trees  
We came down from the trees

And did we learn sarcasm  
Or fighting with glasses  
Dividing the money and making the classes  
Before we came down  
From the trees  
We came down from the trees

Ed and Neil said  
There was so much confusion  
On what is called progress  
And what's evolution  
Maybe we were happier before  
We came down from the trees  
We came down from the trees

And i'm swinging from my branch  
Waiting for my arms to get longer  
So i can reach the next tree  
Move into it's shelter  
But i am so tired  
I'm so so tired  
I just, and I just come down  
Come down  
Come down from the trees  
I might just come down from the trees  
I might just come down from the trees
