## **Power On Me**

Can't hide my plea No, you're in front of me Face says you're here and I'm wanting you Can't hide my frustration Nor my intention Tell me how do I get to you It helps decide but maybe I I'm a little less stubborn than you So it hurts my soul, I may never know Just exactly how I feel for you

Uuuh, does it make you feel good Knowing that you could Have power on me And uuuh uh, does it make you feel good Knowing that you could Have power on me

I wish I'd seen when it happened to me That I could fall to you so deeply So glad I knew not to rush things with you 'Cause now you've grown on me so naturally So intriguing you got me feeling I could stay witchu for hours So why's your hold so warm then cold Oh please don't be a coward

Uuuh, does it make you feel good Knowing that you could Have power on me And uuuh uh, does it make you feel good Knowing that you could Have power on me

(Have power on me) (6x)

So does it make you feel good Cause that's the only way I want you to feel with me Now what's it make you feel like Do you feel somehow you could open up your heart to me (2x)

Uuuh, does it make you feel good Knowing that you could Have power on me And uuuh uh, does it make you feel good Knowing that you could Have power on me (Have power on me) (7x)
