

Gimme That

Keel

Gimme that song that takes me home
Gimme the music - bring it on
Gimme that

Take me back where I belong
Give me a reason to carry on
Gimme that - aw, gimme that

Give me a war that I can win
Give me something to believe in
Gimme that - just gimme that

Give me a beer that's good and cold
Give me a love that never grows old
Gimme that

Gimme that road that leads to you
Gimme the word? gimme the truth
Gimme that - just gimme that

I want a cause worth fighting for
I want a life worth dying for
Gimme that - just gimme that, now

I want a party that lasts all night
Give me a woman that'll treat me nice
Gimme that

Give me the time to make things right
Give me a dream that never dies
Gimme That - yeah gimme that

Give me a war that I can win
Give me something to believe in
Gimme that - just gimme that
