

Blind And Afraid Of The Dark

Keith Whitley

For you the light is shining bright
Out with your good timin' friends
But here in my world tonight
For me the light's growing dim.

Blind and afraid of the dark
Broken and falling apart
When you left you left my heart
Blind and afraid of the dark.

For me the nights have no ends
Here in the dark all alone
The sun will never shine again
In my heart now that you're gone.

Blind and afraid of the dark
Broken and falling apart
When you left you left my heart
Blind and afraid of the dark.

Blind and afraid of the dark
Broken and falling apart
When you left you left my heart
Blind and afraid of the dark.

Blind and afraid of the dark...
