I Don't Know You Well Enough To Say Goodbye

Keith Whitley

```
I know the way you touch me in the night
Laying closely by my side
And I can see the way you look by candle light
Every time I try to close my eyes

And know you're thinkin' that it might be time for us to say
It's over when we haddly even try
But I don't know you well enough everything I've given up
Not well enough to ever say goodbye

I don't know you when you tell me that you'd leave me
Was it something that I said that made you cry
I guess there's lots of danger I'm not seeing
I don't know you well enough to say goodbye

I know the way you look when things ain't goin' right
There's things you never could disguise
And know you thought I rather let you go to fight
I guess it's time we both apologize

I don't know you when you tell me that you'd leave me...

I don't know you well enough everything I've given up
I don't know you well enough to say goodbye
```
