

# Brothers and Sisters

The Kelly Family

When we were kids  
We shared bread  
We shared our toys  
And we were friends

Then mama left  
Us all behind  
We survived  
And had big dreams

Then later on  
We shared guitars  
We rocked the stage  
And wrote good songs

First we were poor  
Then we were rich  
We cried and laughed through all that time

Brothers and sisters

We had our fights  
We had our laughs  
We had our tears rollind down our cheeks

Then you went your way  
And I went mine  
And the years that passing by

Love came our way  
Marriages in the air  
And children were born

Brothers and sisters  
Together we're strong  
Brothers and sisters  
Hold on

Brothers and sisters  
Together we're strong  
We can make it again  
Oh we can make it again

Here we stand  
On this stage  
Years have passed by and we're still strong

We still sing  
We still smile  
And today we're here as one

And you're still here  
Our dear audience  
You were true to us all this years

Through ups and downs  
You supported us

Your love carried us through  
Trough hard times

Brothers and sisters...

She left a mission for you and for me to accomplish  
She gave us the tools to survive and learn how to love  
And I carried her words in my heart and believed all these years  
"Do a super job"

Brothers and sisters...
