

# Unapologetically

Kelsea Ballerini

They're gonna say I fell too fast  
They're gonna say it's never gonna last  
And before it's too late, I should just back away  
Yeah, they're gonna say that  
He ain't the kind to hold my hand  
He ain't gonna try to understand  
Nothing under the surface  
He's just looking for a pretty face

But they got it all wrong  
I got it all right  
They say they just don't see it  
But I saw it at first sight

And I'm unapologetically in love  
And that's unapologetically enough  
No matter where it takes me  
Even if it breaks me  
I'm unapologetically all in  
From the second that I started falling  
And it don't even phase me  
When they call me crazy  
I'm unapologetically in love  
I'm unapologetically in love

So I could care less if I'm being careless  
Might wreck me to be reckless  
But I'd rather fall apart than  
Love half-hearted  
Yeah, maybe it's true that you know when you know  
And then again maybe you don't  
But when you find a diamond  
You can't keep it from shining

And I'm unapologetically in love  
And that's unapologetically enough  
No matter where it takes me  
Even if it breaks me  
I'm unapologetically all in  
From the second that I started falling  
And it don't even phase me  
When they call me crazy  
I'm unapologetically in love  
I'm unapologetically in love

The life of my party  
He keeps my eyes starry  
So I'm so sorry for not being sorry

I'm unapologetically in love  
I'm unapologetically in love

I'm unapologetically in love  
And that's unapologetically enough  
No matter where it takes me  
Even if it breaks me  
I'm unapologetically all in

From the second that I started falling  
And it don't even phase me  
When they call me crazy  
I'm unapologetically in love  
I'm unapologetically in love

They're gonna say I fell too fast  
Yeah, they're gonna say it's never gonna last  
Unapologetically
