

Tonight

To-To-To-Tonight
To-To-To-To-To-Tonight
Tonight, Tonight

We try to know and take it just like tonight
Let your feeling riding over the flies
To make your joy, well, enjoy yourself
Don't give up the pleasure of tonight

Don't be so worry, baby
Everything has gotta be great
Why don't you try to know it
You don't tell things to forget
Or will I tell you

Oh, oh...
We will see tonight
We got the pleasure in the right way
Oh, oh...
You and me, better now
We're finally together

Tonight
Stop to move and just listen to me
We'll be paddling now to lose your mind
Catch the moment, enjoy yourself
Try to touch it with the love in your eyes
