

How Forever Feels

Kenny Chesney

Big orange ball, sinkin' in the water
Toes in the sand, couldn't get much hotter
Little umbrella shaped margaritas
Coconut oil, tannin' senioritas
Now I know how Jimmy Buffet feels

Hands on the wheel, cruisin' down the interstate
Gas pedal sticks, carries my car away
I was going fast as a Rambler goes
I could feel the speed from my head to my toes
Now I know how Richard Petty feels

I've been around the block a time or two
Done almost everything a boy can do
I've done some livin', yeah I've had fun
But there is one thing that I haven't done

Saved two months, bought a little diamond
Tonights the night, feels like perfect timin'
Down on one knee on momma's front steps
Man I'm gonna die if she really says yes
I wanna know how forever feels

I've been around the block a time or two
Done almost everything a boy can do
I've done some livin', yeah I've had fun
But there is one thing that I haven't done

I wanna know how forever feels
Hey, I wanna know how forever feels
Girl, I wanna know how forever feels
