

# Cold Blooded

Kid Cudi

Hmmm

I got my head on a swivel  
Think its time I open my mind where I left it  
Nigga make it easy  
Make sure that they can't delete me  
I'm bout to be rewire your whole fucking mainframe  
I'm sick of the same  
Lame old same thing  
I got some bubonic you might wanna mix with some whiskey  
I got a vendetta with showing niggas that I'm way better  
Feeling way worthless  
The lost black sheep of G.O.O.D. Music  
Only good for a hook, huh?  
Let me show you flows  
Intuitive when it comes to many things I know  
Cold  
Most winters I would dream of being a winner  
Feeling like less than shit to the doubters  
Pain I promise to all who oppose my knowledge  
My reign  
The fucking essence of pain fuck rain  
Standing in a monsoon of cool  
Time will tell  
This is what it is when you're walking to hell

Oh! Bitch you know I'm cold yea  
I'm one cold blooded nigga  
Oh So cold  
Niggas know I'm cold yea  
I'm one cold blooded nigga  
Owie!

I love how I can make so many people feel uneasy  
Walk right passed I know you hoes see me  
Can't deny the shine of a jedi  
World class almighty super cudder the Godly  
Went from to smoking tiva that was my hobbies  
I love shittin on these niggas that is my fave  
Can't fuck with an unstoppable force  
That lives with no regrets and of course no remorse  
One two one two  
Assholes now please listen close  
I live for the day to watch all you pussies roast  
Whoosah whoosah  
So I don't slit nobody throat  
Awww it ain't my fault, thought he had the juice  
Bash a nigga face in  
Watch the blood leak  
Put my ear where his jaw was  
Tell a nigga to speak  
Standing in a monsoon of cool  
Karma is my armor  
Was always scared of my father  
Beyond

Oh! Bitch you know I'm cold yea  
I'm one cold blooded nigga

Oh So cold  
Niggas know I'm cold yea  
I'm one cold blooded nigga  
Owie!  
(2x)
