

# ILLusions

Kid Cudi

These illusions in my head, ohh (I never wanna leave)  
Hallucinating, flying through air, ohh, so long  
To the demons in my head, ohh (No more misery)  
Hallucinating, flying through air, ohh, so long  
Free, free

And I got it, and I got it, and I got it  
And I got it, and I got it, and I got it, yeah  
And I got it, and I got it, and I got it  
And I got it, and I got it, and I got it, yeah

Think I was about 13 (Let's go)  
The darkness had me diseased  
A young warrior on my own (Own)  
I choose to take control  
They say the light keeps the evil at bay  
As I coast right through my mind (Home glide)  
In this beauty far as eyes can see  
Lotta shit making sense lately

These illusions in my head, ohh (I never wanna leave)  
Hallucinating, flying through air, ohh, so long  
To the demons in my head, ohh (No more misery)  
Hallucinating, flying through air, ohh, all so long  
Free, free

More more more more more  
Around the age of 23 (Let's go)  
Is when I finally heard the frequency  
And I've been tuned in the line of grace  
Livin' an electric dream  
Trippin' in the warmth of the love all around me  
I'm trippin' in the warmth of the sun

These illusions in my head, ohh (I never wanna leave)  
Hallucinating, flying through air, ohh, so long  
To the demons in my head, ohh (No more misery)  
Hallucinating, flying through air, ohh, so long  
Free, free

And I got it, and I got it, and I got it  
And I got it, and I got it, and I got it, yeah  
And I got it, and I got it, and I got it  
And I got it, and I got it, and I got it, yeah  
Fly, fly, fly, fly, fly, fly, fly, (up, up, up, up, up)  
Fly, fly, fly, fly, fly, fly, fly, (up, up, up, up, up)  
Fly

These illusions in my head, ohh (I never wanna leave)  
Hallucinating, flying through air, ohh, so long  
To the demons in my head, ohh (No more misery)  
Hallucinating, flying through air, ohh, so long  
Free, free
