

## Race The Dream

Kill Hannah

Love, my angel on silver lines  
So young and terrified...  
Somehow we realized  
Only the strong survive

Our doctors say, "You know the drill  
This broke heart won't ever heal"  
She needs drugs  
And he needs 'em just as bad  
He said, "Be my love  
And race the dream together  
Then I'll know they can't tear us apart!"

Careful, for when it was all the rage  
We were glass managerie  
"Some pills and you'll be fine"  
Only the strong survive

But my love  
We'll race the dream together  
Then I'll know they can't tear us apart!  
All my love  
The king and queen together  
Now I know they can't tear us apart!
