Do You Dare

Kingdom Come

Make no sound - start to feel In and out - nothing's real Love is rising - want to share Come on out - I'll be there

You'd rather hide - behind uniform Sitting inside - the eye of the storm

Do you care - do you dare I'm calling you - meet me half way through

The human mind - 's hard to read Disbelief - killed the seed Fear is rising - sure you know The only way - 's to let it go

You'd rather hide - behind uniform Sitting inside - the eye of the storm

Love's cool breeze Make the call - you can't fall Warm and true - 's what I'll be to you
