

Pony Up

Kings of Leon

I got razor sharp mind that wants to cut you down
A little place in mind maybe I could bed you down
Pony up, we got a ways to go
Set me up my friend, I'm running low

Oh, if you take my hand I'm gonna get you outta here
The crash of bottles breaking and the swinging chandelier
In a rain of bullets and blood and snow
I saw the midnight coming and I watched her go

In a rain of bullets and blood and snow
I saw the midnight come and I watched her go
Yeah, I watched her go
I watched her

I watched her go
