

## The Face

Kings of Leon

Beneath the dance hall lights  
You see my girl so sound  
Lights up the ground  
If you give up New York  
I'll give you Tennessee  
The only place to be

The cowboy's burning eyes  
Don't like the sight of me  
Just straight enough to breathe  
I like your point of view  
So don't shy away  
Ride out the wave

Ride out the wave

You had me holding on  
Another time and place  
Ride out the wave  
Bury yourself away  
The one and only face  
Ride out the wave

Ride out the wave
