

It's Gonna Take A Little Bit Longer

Kitty Wells

It's a gonna take a little bit longer for me
To ever get you off of my mind
It's a gonna take a little bit longer
'Cause I've been loving you a long long time

People try to tell me that it won't be long
Till I won't even miss you anymore
But I can tell there must be something mighty wrong
Every day I want you even more

It's a gonna take a little bit longer for me
To ever get you off of my mind
It's a gonna take a little bit longer
'Cause I've been loving you a long long time

They say this lonely feeling it'll go away
But after all this time now it ain't gone
Every weaken moment every night
And day it just seems to keep on keeping on

It's a gonna take a little bit longer for me
To ever get you off of my mind
It's a gonna take a little bit longer
'Cause I've been loving you a long long time
Yes, I've been loving you a long long time
