

# I Love You Nancy

Kool Keith

Yeah! Live... from the Staples Center... in Los Angeles, California  
Y'know... this is a song... I wrote from the heart

Too much \_I Love Lucy\_ kid, you think you're Desi Arnaz  
I tell you off in the facts like Ralph and Ethel  
I can't be in the Valley doin the Hollywood Shuffle  
My voice tenor like the Whispers  
Your girl adapt to me in unison  
Tight outfits like the Spinners  
What I mastered is worser than \_Dukes of Hazzard\_  
Find out ask \_Miami Vice\_ about me, Miami twice about me  
The Coconut Tree down in Cuba, red light action  
Camera work by David Luger  
E! light entertainment, I need the money edit JVC  
Handheld, Geiger silver  
Could shoot or meditate on the block  
The motion picture's clear, the girl is hot

I love you Nancy (I wanna take you on exotic boatrides)  
I love you lady (I don't wanna argue witchu no more)  
I love you Nancy (give you things you never dreamed of)  
I love you baby (I wanna stay in the house)  
I love you (and be a good man)

Give me a little more hard energy  
More impact and intensity  
Bikinis and more bras  
Scenes on hoods of hot rods  
My collection of personal and private songs shock you  
Like Hot Wheels and Johnny Lightning cars  
With social exposure, a magnetic force  
Evolve and change with culture  
Black Elvis Presley, Grace mansion, the man is handsome  
Don't act wild girl like babies throwin a tantrum  
I scrub out problems like dandruff  
I watch you stand stiff  
C'mere honey, give me a kiss...

I love you Nancy (I wanna take you on exotic boatrides)  
I love you lady (I don't wanna argue witchu no more)  
I love you Nancy (give you things you never dreamed of)  
I love you baby (I wanna stay in the house)  
I love you (and be a good man)

The hot vacation, took you out of frustration  
You still my psychology patient  
Solve the best, but I'm one hard equation  
Spanish ladies, Italian, white black or asian  
Peru, Indian, Cindy and, Mindy and  
Kimmie and we hold the toast with cups of tea  
Three cups you see, I call you late  
A quarter to three, we be that, a bouquet  
Gifts and roses, sparkles of diamond, je-wels  
Pearls of Bombay

I love you Nancy (I wanna take you on exotic boatrides)  
I love you lady (I don't wanna argue witchu no more)

I love you Nancy (give you things you never dreamed of)  
I love you baby (I wanna stay in the house)  
I love you (and be a good man)
