

Pass The Love Around

Krewella

My heart feels drunk
I knew that I don't need anything else
Your smile's a drug
With every moment that passes I melt
We fill our lungs, we breathe this night in
There's no feeling more inviting
We're never going home
Never gonna be alone

1 when we leave the house
2 A.M. we're feeling it now
3, we pass the love around
We don't wanna come down, wanna come down
4 when we self destruct
5 A.M. we can't get enough
6 the sun is coming up
We don't wanna come down, wanna come down

The chains are gone
No one's stopping us from living out loud
From dusk till dawn
We lost ourselves in the arms of this crowd
We spill out our lungs, exhale this night out
All we really want is right now
We're never going home
Never gonna be alone

1 when we leave the house
2 A.M. we're feeling it now
3, we pass the love around
We don't wanna come down, wanna come down
4 when we self destruct
5 A.M. we can't get enough
6 the sun is coming up
We don't wanna come down, wanna come down

All you ever wanted
Was someone by your side
Telling you it's alright, it's alright
Have no fear, we are here
We'll pass the love around
We'll never come down

1 when we leave the house
2 A.M. we're feeling it now
3, we pass the love around
We don't wanna come down, wanna come down
4 when we self destruct
5 A.M. we can't get enough
6 the sun is coming up
We don't wanna come down, wanna come down

We don't wanna come down, wanna come down
Pass the love around
We don't wanna come down, wanna come down
Pass the love around
