

# Orangutan

Krizz Kaliko

Get off the seat of my pants  
I wanna knuckle up, and beat em, I'm antsy  
King of the jungle, I beat a chimpanzee  
I never gave a single fuck on a man, see  
Never ran the city of Kansas banshee  
But I been around her a minute and then I did it all I may not been all around the planet and then I'm finna show em how ya make a novelty pop  
When he go choppin' he's as hot as you can possibly stand it but wait  
Number one draft pick on Speedom, beat 'em  
Niggas get they ass kicked when I see em we dumb  
Get em in they plastic when I read 'em, keyed em  
Sick of wack whack shit cried freedom, freedom  
Thinking of mashed potatoes at night baby sick and I pass - aby maybe sipping on gas and they paid us delight  
I might be giving a bath to my label, finger to my cable TV Kali Baby and I'm ready to fight an orangutan

Oh, let 'em out, let 'em out  
Animal and he's circling about  
Keep us free and it won't come out the mouth  
Monkey do, monkey see, it's about to go south  
He never did no harm to me  
Like he could free easily  
Enough to make your heart go bad  
Ferocious... orangutan!

No killing what can't be killed

Get off the dick of a nigga bigger than you  
Getting money to hand me  
You don't know me, I pull up on the sansby  
Pull out the jimmy, put it right where their hand be  
Guns is handy, big as Michael Alig with candy  
Can't stand me, plan to can me, dick damn (But I rock)  
Holler if you find a nigga better, pull a hammy sammy be bout them fans but (he not)  
Selling out to get a little cheddar in my land, a hand only that that man (and he drop)  
And figure out what the eleventh letter is fam and animals is stand on (that Glock)  
And cut the head off every little keffer  
Black dynamite I'm running thangs, I don't bang but I got love from here to Inglewood to the Hunnidgang  
So that mean that I can hunt ya if I wantcha get a bunch of mandingos, amigos with gringos  
If ya know me then ya know I gotta make feet step to the beat of my own damn drum  
On some grown man stuff, never weak cause I beat you to the fleet all along ran come  
Get ya funk ass up, get my secretary 30 dollars and I'm hallow I'm living in the dirty water  
Me and 40 Water only fat niggas that'll remain  
Music, Strange - Orangutan!

Oh, let 'em out, let 'em out  
Animal and he's circling about  
Keep us free and it won't come out the mouth

Monkey do, monkey see, it's about to go south  
He never did no harm to me  
Cause I could get free easily  
Enough to make your heart go bad  
Ferocious... Orangutan!

No destroying what can't be destroyed

Ain't nobody here ready for the beheading  
I'm bringing the Armageddon  
They killing dead and then let 'em in  
We put the pedal to the metal  
It's W-T-F ever whenever they wanted you to edit in  
Don't really matter what I say or what I be on  
They knowing they can take it to infinity and beyond  
They prayin' on my death, hoping that it wouldn't be long  
But it could take an eon, no B-S so we gone

But we on speed, you couldn't get a lead on  
I keep calm, rap fast and feast on  
I heard, everybody gotta play the fool  
In the jungle, nobody safe from the chain of food - you dig?  
And I been cooking in the kitchen waiting on a couple things  
That didn't come to fruition that we're doing this spring  
You wouldn't think that rappers are really bitches  
Strip 'em of all their riches and see what they can do in the ring  
Scooby is big if you can consider both of us represent for the middle  
Keep it Strange and doing it big  
You be the king, orangutan, usually  
Hanging, one-handed, from a branch where you couldn't swing  
Ha, and the view is insane  
You never see it but believe it's a beautiful thing  
I sped up speed, you seen I make it sin upstream  
Live in a cage until the day they gotta give us free  
I'm out

Oh, let 'em out, let 'em out  
Animal and he's circling about  
Keep us free and it won't come out the mouth  
Monkey do, monkey see, it's about to go south  
He never did no harm to me  
Cause I could get free easily  
Enough to make your heart go bad  
Ferocious... orangutan!

Evolution is saying I come from monkeys  
I don't know but what I do know is people get super jumpy  
In every part of the country, they look at a nigga funky  
Like I'm an alien baby and I get 'em all really grumpy  
When I spit it, they don't want to admit it, but I shit it  
Whenever I get to pivot up on the mic and I lit it  
I get 'em livid, I do the impossible, fuck a critic  
I tell 'em to kid-iss my did-dick you bid-itch

Come and witness the animals on exhibit  
We taking over the planet and all of the outer limits  
They hand me they will and really ain't gotta be reinvented  
With the pen and some picture being plotted  
You couldn't mimic  
I'm p-equitable, service I'm in a tin and let him out like Krizz  
Hanging off of the tree, but I'm hanging  
Chest banging indestructable  
Diamonds on display and see us swinging

On the monkey bars, who let an orangutan in?

Pongo, banging on the bass of the bongos  
Even the Congo strapped up with a longbow  
Soon as we get to rockin', I be up in the Times bro  
Cause I'm an animal, happy to damage the stronghold  
Why you gotta be knocking the ooo-wee switch?  
We get it poppin', more than often and you do eat shit  
Hit the drop and motherfuckers chop-suey prick  
This our planet goddammit, King Louis, bitch

Somebody better tell 'em watch the throne  
I come outta nowhere with a knockout like Holly Holm  
You on top now, not for long  
The name's Strange, rang bells worldwide  
But you hardly known  
I'm balling on 'em like I'm Karl Malone  
My swisher looking like a waffle cone  
But know my homies know I came to drink  
These rappers thinking we the same, we ain't  
I might jack the track while you just back up  
Sang Jermaine, I'm an orangutan
