Halftime

KRS-One

Right now as we rockin they shootin outside

Now we have got to chill

We have got to chill

We can't have no gunfire because hip-hop can't build

Let's leave all the shootin and the violence outside I know there's some people in here, armed to the teeth But understand...

It is the conciousness behind the gun that determines if the gun is positive or negative So let's not blame it on no pistols, no guns, no gats Let's blame it on the conciousness of the mind holding the gat
