

# Modern Blues

Kula Shaker

system wonder I stopped believing  
crawled out the morning  
climbed up the ceiling  
Blew out the gaslight  
ain't got my mind right  
I'm on the wrong side calling calling

I've got the modern blues for you honey  
I've got the modern blues  
I've got the modern blues for you honey  
I've got the modern blues yeah

here come the bad times  
don't follow leaders  
fold up the red flag  
tear up your Nietzsche  
forget tomorrow  
all thoughts are borrowed  
I've got this feeling falling falling

I've got the modern blues for you honey  
I've got the modern blues  
I've got the mind  
to find where you're coming  
I got the evening news hey yeah yeah

somebody spare me  
this twisted philosophy  
I'm searching for meaning  
in a world of mediocrity  
I can't move for preachers  
can't find no teachers  
think i'm gonna stay here in bed  
so blue blue so blue blue

'cos I wasted my whole life  
working for fools  
running on amphetamine  
turning purple and blue  
I've got blood on my fingers  
I've got stones in my shoes  
I said what's a man  
what's a man what's a man to do

I've got the modern blues for you honey  
I've got the modern blues  
I've got the modern blues for you honey  
I've got the modern blues

'cos I wasted my whole life oh  
working for fools
