

# Here for You

Kygo

We'll be passing by and I'll be wasting time  
Just waiting for news  
And while we're chasing darts, we'll be dancing in the dust  
Cause we're coming through  
Whenever you need me, I'm behind  
And I've promised to take you out to the heights

When you feel you've had enough and you've wasted all your love  
I'll be here for you, here for you  
When the darkest of his bone and you've run away from home  
I'll be here for you, here for you

I'm here for you, I'm here for you, you, you  
I'm here for you, yeah, I'm here for you, you, you

And while they're underground, we'll be looking down  
Cause we found the truth  
And the fire in the hearts we'll be glowing up to the stars  
Now we're coming through, yeah  
Whenever you feeling down inside  
I've promised to take you out to the heights

Ah yeah, I'm here for you  
And when you feel you've had enough and you've wasted all your love  
I'll be here for you

I'm here for you, I'm here for you, you, you  
I'm here for you, yeah, I'm here for you, you, you
