

# Nothing Left

Kygo

Tell me that you need me  
To help you find a way  
Through all of this madness  
Can I be your light of day?  
Please, won't you believe me?  
Even if you don't agree  
Know that I am trying  
To help us all break free

Oh, there'll be nothing left for no one, no  
There'll be nothing left for no one  
If you don't start living your life  
Turn to one side with a blind eye  
There'll be nothing left for no one  
For no one

I'm saying that I'm sorry  
For things I've said and done  
But I don't want to be here  
If I'm, I'm looking down a gun

Oh, there'll be nothing left for no one, no  
There'll be nothing left for no one  
If you don't start living your life  
Turn to one side with a blind eye  
There'll be nothing left for no one  
For no one
