## **Stranger Things**

Stranger things
We're like, we're like a stranger things (very far)
We're stranger things (dream of places at)
'Cause that's just who we are

We used to run around this ghost town Always thinking out loud Are we gonna get out I remember We dream of places that we could go Castles with the strange glow People that we don't know I remember

We left a life That's ordinary from the start We looked for stranger things 'Cause that's just who we are Found me the edge of something beautiful and loud Like I'm picturing now

Castles glitter under Spanish skies But I'm just looking after you tonight Snow white mountains in a foreign state Tell me someday we'll get there Someday Someday

I see a Technicolor shadow Underneath your window Just in case you don't know I can see it You cast an unfamiliar day glow Different than what I know Shining like a halo I can feel it

We turned our back on ordinary from the start We looked for stranger things 'Cause that's just who we are Found me the edge of something beautiful and loud Show me the sky falling down

Castles glitter under Spanish skies But I'm just looking after you tonight Snow white mountains in an ancient place Tell me someday we'll get together Someday Someday

A stranger things We're like, we're like a stranger things (very far) We're stranger things (dream of places at) 'Cause that's just who we are A stranger things (very far) We're like, we're like a stranger things (very far) We're stranger things (dream of places at)
