

In The Shade

Labyrinth

Livin' in a wasteland
without any shadows
what's left for me to see?
I wonder with my soul

Your Angel-eyes are shining bright
I wanna take your hand
All I know is I can't live with you

In the shade, I will remember
In the shade, I will remember

Fear lives inside your mind
(but) my dream is still alive
and I'm never looking back
I'm dreaming peace and love

Find you lost in any place
I'm miles away
I'll be searching high and low

In the shade, I will remember
In the shade, I will remember

In the shade, I will remember
In the shade, I will remember...
