In The Shade

Livin' in a wasteland without any shadows what's left for me to see? I wonder with my soul

Your Angel-eyes are shining bright I wanna take your hand All I know is I can't live with you

In the shade, I will remember In the shade, I will remember

Fear lives inside your mind (but) my dream is still alive and I'm never looking back I'm dreaming peace and love

Find you lost in any place
I'm miles away
I'll be searching high and low

In the shade, I will remember In the shade, I will remember

In the shade, I will remember In the shade, I will remember...

Labyrinth
