

## A Love Song

Ladyhawke

It all began innocent as love can be  
In every word you gave it all to me  
Cause this is what a love song sounds like  
Another life, two beating hearts are mine  
The party's over, but you're still over the line  
Cause this is what a love song sounds like

This could be my life, but it's only words  
To make me feel right when the meaning's blurred  
You've opened my eyes to the oldest tale of time  
This is what a love song sounds like  
This could be my life, but it's only words  
To make me feel right when the meaning's blurred  
You've opened my eyes to the oldest tale of time  
This is what a love song, love song sounds like

I'm falling down, too much to drink again  
You pull me up and tell me how it could end  
This is what a love song sounds like  
I gave it up, I don't wanna hurt anymore, it wasn't me;  
Why can't you just open the door?  
This is what a love song sounds like

This could be my life, but it's only words  
To make me feel right when the meaning's blurred  
You've opened my eyes to the oldest tale of time  
This is what a love song sounds like  
This could be my life, but it's only words  
To make me feel right when the meaning's blurred  
You've opened my eyes to the oldest tale of time  
This is what a love song, love song sounds like

Life is always meant to replay  
No heart break no more today

This could be my life, but it's only words  
To make me feel right when the meaning's blurred  
You've opened my eyes to the oldest tale of time  
This is what a love song sounds like  
This could be my life, but it's only words  
To make me feel right when the meaning's blurred  
You've opened my eyes to the oldest tale of time  
This is what a love song, love song sounds like

This is what a love song sounds like
