

Midnight Strikes

Lafee

Dark it's oh so dark
Fear comes creepin
The nightmares bout to start

Steps, its him again
He's got that hunger,
she can't comprehend

Hush now, you need to hush now
He whispers "look who's coming now"

Midnight strikes in the darkest night of her life, she cries
All her dreams are dyin'
Midnight strikes in the darkest night she's in tears
She hears a million angels screamin' in pain

A child she's just a child
But that dont stop
his mind from runnin' wild

Cold she's oh so cold
So helpless as evil unfolds

Hush now, you need to hush now
He whispers "look who's coming now"

Midnight strikes in the darkest night of her life, she cries
All her dreams are dyin'
Midnight strikes in the darkest night she's in tears
She hears a million angels screamin' in pain

Midnight strikes in the darkest night of her life, she cries
All her dreams are dyin'
Midnight strikes in the darkest night she's in tears
She hears a million angels screamin'

Midnight strikes in the darkest night of her life, she cries
All her dreams are dyin'
Midnight strikes in the darkest night she's in tears
She hears a million angels screamin' in pain
