

# Now's The Time

Lafee

I never thought I could get this far  
I still hear them say no chance, no way  
And they said she ain't too smart  
She ain't got what it takes, this girl is bound to fail  
I almost bought that shit but I ain't gonna quit

Now's the time  
The time to lay it on the line  
The time for me to say and do whatever's on my mind  
I will fight for my right, will defend my way of life  
Come hell or high water  
Now's the time  
The time has come for me to shine  
Whatever they may say, I ain't gonna break my stride  
I will make the world see you can realize your dreams  
Come hell or high water  
Now's the time

In the eye of the storm but I ain't scared  
Cause after the storm There'll be calm somewhere  
An army of thousands pissin' on my dream  
But I don't give a damn  
Guess I'll have them make to see:  
I never gave a shit and I ain't gonna quit

Now's the time  
The time to lay it on the line  
The time for me to say and do whatever's on my mind  
I will fight for my right, will defend my way of life  
Come hell or high water  
Now's the time  
The time has come for me to shine  
Whatever they may say, I ain't gonna break my stride  
I will make the world see you can realize your dreams  
Come hell or high water  
Now's the time

Now's the time  
The time to lay it on the line  
The time for me to say and do whatever's on my mind  
I will fight for my right, will defend my way of life  
Come hell or high water  
Now's the time  
The time has come for me to shine  
Whatever they may say, I ain't gonna break my stride  
I will make the world see you can realize your dreams  
Come hell or high water  
Now's the time  
The time to lay it on the line  
The time for me to say and do whatever's on my mind  
I will fight for my right, will defend my way of life  
Come hell or high water  
Now's the time
