

On The First Night

Lafee

One look into you eyes
I can tell what's on your mind
But the time ain't right to feed the fire
Please understand I'm not ready
I've been dreamin' of the two of us together
I want it too, o do I ever
But the timing ain't right
We've gotta take our time, be patient
I'm not ready

On the first night this can't go down
Please understand that ain't what I'm about
On the first night I need you to wait
Cause the time's not right for "All the way"

Will you do me, will you do me, will you do me this favor?
I've been dreamin' of the two of us together
Me givin' in on a night to remember
I am so scared to lose you but we can't go ahead
Tell me the true now, do you love me?

On the first night this can't go down
Please understand that ain't what I'm about
On the first night I need you to wait
Cause the time's not right for "All the way"

Is this love? This could be love
I'd love to love you
Please don't rush me

On the first night this can't go down
Please understand that ain't what I'm about
On the first night I need you to wait
Cause the time's not right for "All the way"

On the first night I need you to wait
Cause the time's not right for "All the way"
