We Are Making Love Again

Lake Malawi

We are making love again She said she loves me I can see the stars again And she's above me

We are making love again She said she loves me I can see the stars again And she's above me

If I make it out of the dark
Out of the dark
Say you will wait
At the wishing well

Why do I see a child in your eyes? Child in your eyes She came to tell me She is okay

If I make it out of the dark
Out of the dark
Say you will wait
At the wishing well

Do I see a child in your eyes? Child in your eyes She came to tell me She is okay

She said she loves me

We're making love again
I can see the
I can see the stars again

We're making
We're making love again
I can see the
I can see the stars again
