

# Northern Lights

Lana Lane

Shine for the world  
Dance for me again in my mind  
Songs in the sky  
Lonely heart alone

Winter so long  
Holding me in trance far away  
Nights go on and on  
They'll be here too stay

Northern lights haunting me  
And I'll be back where I long to be  
But the northern lights they carry on  
One more night alone

Walk through the storm  
Never fear, my love is real  
Dreams captured me  
But I'll be free again

From the northern lights haunting me  
And I'll be back where I long to be  
But the northern lights they carry on  
One more night alone
