

## Got A Call

Land of Talk

Got a call  
the one i've been waiting for  
in the middle of the night  
Said I know what you do and know its the same to you  
can't keep down the girl who loves music

Darkness dares to the diatone  
as I sing myself to sleep  
the most beauty I've seen  
lives in a dream  
where we laugh and want to live for the little things

Not even if I could get you back, I don't try  
You weren't all that good, but I loved you like you were  
mine  
Is it the only thing, I keep it like I see it  
I feel like it always rains, a billion hearts stop  
bleeding

Alone and no one knows how to feel  
and I party all the time  
Yeah I know how to kill, but I hate how it feels  
that everyones in love with someone else

And even if I could get you back, I don't try  
You weren't all that good, but I loved you like you were  
mine  
Is it the only thing, I keep it like I see it  
I feel like it always rains, a billion hearts stop  
bleeding
