

Fire Horses

Lapko

I'm looking through my Blue Eyes
through my breath
It feels like I'm fighting against something
that drags me down
Am I only a character
Would I rather be a nazi than alone
I really do not feel no worry
But I still believe anyway

There's no end of things in the heart
You should feel no worry
There's no end of things in the heart
they stay anyway

I shouldn't kill myself before
I've walked two blocks
Cause the time makes sense and
then I may feel alright again
Now I'm sure I'm not a character
and I wouldn't rather be a nazi than alone
I have felt and I feel so sorry
and I'll believe in upcoming days

There's no end of things in the heart
You should feel no worry
There's no end of things in the heart
they stay anyway
It's connected in those secret folds
It's all part the same
and will always be there carrying the same
beat as your heart

Check the box which you choose
and then concentrate
It's connected in those secret folds
A Girl needs porn not fertility
She waits for an explosion
and then goes home
Our preconceptions do not care about the names
they need pleasure anyway
